

**PAAG**

The Patient Advisory & Advocacy Group

## ***ANNOUNCEMENT***

Date: May 25, 2006

Re: Local PAAG Chapter

Dear Patients,

The board members of the Patient Advisory and Advocacy Group (PAAG), is proud to announce a change in our policy allowing for the development of a local PAAG chapter in each of Aegis' clinics.

We strongly believe the collaboration between patients, and Aegis staff will be mutually beneficial to both parties. This will allow staff members to have a better understanding of our needs, preferences and obstacles, and at the same time, will provide us with better insight into the policy and decision-making process of staff members. It will also give us deeper understanding and greater involvement into our own recovery.

Sincerely,

Steve Day  
President  
Patient Advisory and Advocacy Group
