

## The Patient Advisory & Advocacy Group

Friday, August 10, 2007

### ***RESOLUTION #7***

To All Aegis Staff Members,

We, the board members, of the PAAG (“Patient Advisory & Advocacy Group”) would like to endorse the new scope of treatment and services, which are incorporated in the new Aegis Model.

We strongly believe that the new services detailed within the Aegis Model, including specialized group and individual counseling, educational programs, social work services, support groups, are all essential components to successful recovery.

We would like to welcome the extension of Aegis’ services, and recognize that the majority of the services identified in the Aegis Model are presently not reimbursable through the State. It is our hope that in the near future, the state recognizes the importance of these services, and adjusts the reimbursement structure accordingly to support the recovery efforts of NTP patients.

PAAG Board Members
